

## **KogeRx Customized Facial with Microdermabrasion or Chemical Peel**

### **Pre Treatment Instructions**

It is crucial to the health of your skin and the success of your facial that these guidelines be followed:

A facial with microdermabrasion or a chemical peel is a superficial treatment designed to improve the texture and appearance of the skin.

#### **Patients should NOT be treated with the following:**

- Active cold sores or warts
- Open wounds or lesions
- Sunburn
- Excessively sensitive skin
- Dermatitis, Psoriasis or Eczema
- Inflammatory rosacea
- Untreated skin cancer
- Recent surgery in treatment area
- Recent permanent makeup in treatment area
- Rashes, allergies or sensitive skin reactions
- Allergic to chemical peel components or salicylates (aspirin)
- Accutane use in the past 12 months
- Radiation or chemotherapy in the past 12 months
- Pregnant or breastfeeding

#### **2 weeks before your facial with a chemical peel or microdermabrasion avoid:**

- Electrolysis, waxing, depilatory creams
- Laser or IPL treatments
- Chemical peel or microdermabrasion treatments

- Retin-A, Renova, Differin, Tazorac
- Products containing, Retinol, AHA, BHA or Benzoyl Peroxide
- Exfoliating products that may be drying or irritating
- Sun exposure or sunburn

**If you have any history of Herpes Simplex, notify the aesthetician BEFORE receiving a facial with a chemical peel or microdermabrasion.**
